PROJECTS & EXPERIENCE

SPRINGBOARD BOOTCAMP

NYXIS E-Commerce Platform | Bootcamp Capstone Project 2

Fort Lauderdale, FL.

December 2024

- Developed a full-stack e-commerce platform using React.js and PostgreSQL, featuring secure payment integration with Stripe API
- Implemented a robust filtering system using React Router and state management, enabling users to sort products by multiple criteria
- Built responsive UI components with Tailwind CSS and Reactstrap, incorporating carousel functionality for product showcases
- Designed and integrated user authentication system using JWT tokens for secure customer accounts

SPRINGBOARD BOOTCAMP

Blades Portal | Bootcamp Capstone Project 1

Fort Lauderdale, FL.

June 2024

- Engineered a full-stack web application that streamlines RPG session management, allowing users to create and manage characters and game sessions.
- Architected and implemented a PostgreSQL database schema using SQLAlchemy, enabling efficient data relationships between players, characters, and sessions.
- Build RESTful API endpoints with Flask and Python to handle user authentication, character creation, and session management
- Created responsive front-end interfaces using JINJA templating, Bootstrap, and JavaScript for an intuitive user experience.

ADDITIONAL SKILLS

- Proficient in JavaScript, React.js, TypeScript, Node.js, Tailwind, Figma, PostgreSQL, Python, Flask, RESTful APIs, Git
- Fluent in English, Ukrainian, and Russian
